***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1 and 8-10, drawn to a method of making a heat transfer device, classified in class 29, subclass 890.032.
  - II. Claims 2-7, drawn to a heat transfer device, classified in class 165, subclass 104.33.

The inventions are distinct, each from the other because of the following reasons: Inventions of Groups I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product of Group II can be made by another and materially different process which would not require the forming die such as being extruded to the final form.

Also, note that claims 5-7 seem to be dependent on claim 2. Furthermore, claims 10-12 have been renumbered to claims 8-10.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarang Afzali whose telephone number is 571-272-8412. The examiner can normally be reached on 7:00-3:30 M-F.
